Item 3. Approve Minutes of September 5, 2013, Board Meeting.

Mr. Atkinson asked if there were any corrections or additions to the minutes of the Board Meeting of September 5, 2013. Ms. Schiermeyer moved to approve the minutes as presented. Mr. Alley seconded the motion. The motion passed unanimously.

Item 4. Consideration, discussion and possible action to approve the Texas Facilities Commission's Request for Financing to issue approximately \$31,031,000 million in general obligation debt pursuant Art. III, Sec. 50-g, Texas Constitution, Texas Government Code 1232, S.B. 1, Art. IX, Sec. 17.02, 83rd Legislature, Regular Session (2013) for capital repairs and renovations, select a method of sale, appoint outside consultants and take other necessary related action.

Mr. Coalter stated that TPFPA received a request for financing from the Texas Facilities Commission (TFC) for \$31,031,000 in general obligation debt for capital repairs and renovations. Mr. Coalter introduced Diana Warner, the Chief Financial Officer; Rebecca Sanchez, the Construction Accountant ; John Raff, Deputy Executive Director of Facilities Design and Construction; Peter Maas, Director of Project Management; and Kay Molina, the General Counsel of the TFC to discuss the project and answer questions.

Mr. Raff said that in response to TFC's legislative appropriations request to the 83rd Legislative Session, totaling almost \$80,000,000 for deferred maintenance strategies, the Legislature authorized \$31,031,000. Completion of an extensive backlog of repairs and renovations for all state owned office buildings maintained by the Facilities Commission remains a top priority. The entire list of deficiencies and needed repairs for TFC's building inventory is extensive. This request focuses on those projects necessary to address prioritized risks to occupant health and safety and the continuity of operations. It contains only those items determined to be a top priority based on the metrics established in the original 2006 comprehensive facility condition assessment. Continued delay in addressing the entirety of the backlog exponentially increases the critical status of those items that remain unaddressed. This list of strategies encompasses 31 buildings. Deferred maintenance improvements for 15 of these buildings will be supplemented with 2013 supplemental GR appropriations. Improvements include security systems, electrical systems, fire suppression systems, elevators, building envelopes, lighting and mechanical equipment replacements that are critical to the continuity of operations for the buildings they serve. TFC is currently planning the implementation of the improvements for these 31 buildings while in the early stages of developing the budgets in more detail, performing needs and risk assessments for the contracts, selecting project delivery methods and preparing solicitations for professional services to support the efforts.

Mr. Alley asked about TFC's delivery process in the construction procurement. Mr. Raff responded that TFC will award these to construction managers at risk. This process allows TFC to assess the designs and improvements. The construction manager provides a valuable cost

estimating resource, so that at the end of the design, the design actually matches the budget for the construction.

Mr. Alley asked if this is going to be one or multiple firms. Mr. Raff stated it would be multiple firms.

Mr. Atkinson asked for the amount of supplemental GR. Mr. Raff confirmed it was \$20,000,000.

Mr. Moore asked for the reasoning behind not using turnkey contracts in place of construction management. Mr. Raff stated the work being performed is specifically mechanical, which is better suited to the designers working for TFC directly.

Mr. Moore asked if TFC goes through a general contractor or directly to sub-contractors. Mr. Raff responded that for some of the smaller efforts, TFC may have some requirements contracts that TFC can accomplish more quickly and more agilely, but in most cases TFC will package all of the efforts into larger packages and hand them to CMRs. Mr. Moore asked how many contractors would be employed. Mr. Raff estimated TFC would have five different contracts. Mr. Raff confirmed that TFC will award the contracts based on fees and general conditions.

Mr. Alley asked if savings will be used for other projects. Mr. Raff confirmed that savings will be repackaged and used to accomplish more work.

Mr. Moody moved to approve the Texas Facilities Commission's Request for Financing to issue \$31,031,000 in General Obligation debt for capital repair and renovation projects and accept staff recommendation to issue that debt under the Authority's Series 2008 General Obligation Commercial Paper Program. Ms. Schiermeyer seconded. The motion passed unanimously.

Item 5. Consideration, discussion and possible action to approve the Texas Department of Aging and Disability Service's Request for Financing to issue approximately \$17 million in general obligation debt pursuant to Art. III, Sec. 50-g, Texas Constitution, Texas Government Code 1232, S.B. 1, Art. IX, Sec. 17.02, 83rd Legislature, Regular Session (2013) for capital repairs and renovations, select a method of sale, appoint outside consultants and take other necessary related action.

Mr. Coalter stated that the Texas Department of Aging and Disability Services (DADS) submitted a request for financing to issue approximately \$17 million for capital repairs and renovations. Mr. Coalter introduced Mr. Victor Moore, Manager of Special Projects, Teresa Griffin, Director of Maintenance and Construction from HHSC, and Warren Glass from the Department of Aging and Disability Services.

Mr. Victor Moore stated that HHSC is charged with managing and completing the construction for repairs and renovations for the DADS. This \$17 million will go towards all the deferred maintenance that DADS facilities have experienced through the years on all 12 campuses. Mr. Victor Moore stated that HHSC generally uses a lowest and best bid method. HHSC has

selected architects and engineers, but have not yet contracted with any. HHSC will enter into contracts and start the construction and design process, as soon as financing is available.

Mr. Rodney Moore commended Mr. Victor Moore for using the turnkey bidding process adding that it is the best way to spend the state's money. Mr. Victor Moore agreed adding that HHSC has benefitted through the years from the lowest and best bid method.

Mr. Coalter introduced Ms. Melissa Juarez, the Assistant Attorney General from the Administrative Law Division of the Office of the Attorney General. Mr. Atkinson thanked Ms. Juarez for attending the meeting.

Ms. Schiermeyer made a motion to approve the DADS Request for Financing to issue \$17 million in General Obligation debt for capital repair and renovation projects and accept the staff's recommendation to issue that debt under the Authority's Series 2008, General Obligation Commercial Paper Program. Mr. Rodney Moore seconded. The motion passed unanimously.

Item 6. Consideration, discussion and possible action to approve the Texas Department of State Health Service's Request for Financing to issue approximately \$10 million in general obligation debt pursuant to Art. III, Sec. 50-g, Texas Constitution, Texas Government Code 1232, S.B. 1, Art. IX, Sec. 17.02, 83rd Legislature, Regular Session (2013) for capital repairs and renovations, select a method of sale, appoint outside consultants and take other necessary related action.

Mr. Coalter stated the Texas Department of State Health Services (DSHS) submitted a request for financing to issue \$10 million in General Obligation debt for capital repairs and renovations. Mr. Coalter introduced Mr. Victor Moore, Manager of Special Projects from HHSC, Teresa Griffin, Director of Maintenance and Construction, James Dawson, the Deputy Chief Fiscal Officer of the DSHS, and Gary Lawrence, Accounting Director of the DSHS.

Mr. Victor Moore stated that HHSC is also charged with managing the construction program of the DSHS state hospitals, which are composed of 11 facilities and 12 campuses across the state. Mr. Victor Moore stated that HHSC will use the lowest and best bid method like the process described for the DADS.

Mr. Alley asked HHSC to provide a percentage of internal management costs. Mr. Victor Moore stated that HHSC is reimbursed for direct costs out of bond funds based on a project allocation.

Ms. Schiermeyer asked if HHSC was going to hire new internal personnel for the listed projects. Mr. Victor Moore stated that HHSC has requested one additional project manager and plans to perform all project management with internal personnel. Mr. Victor Moore added that HHSC provides support to client maintenance departments and other construction related services that are reimbursed out of appropriated funds.

Mr. Rodney Moore made a motion to approve the Texas Department of State Health Services Request for Financing to issue \$10 million in general obligation debt for capital repair and

renovation projects and accept the staff's recommendation to issue that debt under the Authority, Series 2008, GOCP Program. Mr. Walker Moody seconded. The motion passed unanimously.

Item 7. Consideration, discussion, and possible action to adopt a Resolution authorizing the issuance of one or more series of Texas Public Finance Authority State of Texas General Obligation Refunding Bonds Series 2013; approving the Preliminary Official Statement; authorizing and appointing a Pricing Committee of the Board; authorizing the refunding, defeasance and redemption of certain outstanding general obligation bonds and execution of an Escrow Agreement, Purchase Contract and other related documents; and authorizing taking other necessary action related thereto.

Mr. Coalter stated that in previous meetings, the board appointed Coastal Securities as Financial Advisor and McCall, Parkhurst & Horton as bond counsel on this transaction. Mr. Coalter discussed the parameters of the sale. Mr. Coalter introduced Mr. Jorge Rodriguez, from Coastal Securities and Ms. Carol Polumbo from McCall, Parkhurst & Horton, and Ms. Danielle Bradford from Piper Jaffrey.

The Board appointed a pricing committee comprised of Mr. Moody, attending in person, Ms. Schiermeyer and Mr. Moore, participating by telephone, with all other members serving as alternates.

Mr. Moody made a motion to appoint the pricing committee as discussed and approve the Resolution authorizing the issuance of the State of Texas General Obligation Refunding Bonds including the approval of the Preliminary Official Statement and other transaction documents. Ms. Schiermeyer seconded. The motion passed unanimously.

Item 8. Consideration, discussion, and possible action to approve the Cancer Prevention and Research Institute of Texas' Request for Financing to issue approximately \$300 million in general obligation debt for authorized Program costs appropriated in the 2014 state fiscal year, and appropriated in previous state fiscal biennia (including the (i) \$225,000,000 appropriated in the 2010 state fiscal year, (ii) \$225,000,000 appropriated in the 2011 state fiscal year, (iii) \$300,000,000 appropriated in the 2012 state fiscal year and (iv) \$300,000,000 appropriated in the 2013 state fiscal year), together with related costs of issuance and other ancillary costs to be determined at the time of issuance to fund the operations and program of the Institute, select a method of sale and appoint outside consultants and other financing participants; provided that the total amount of Obligations issued in a year may never exceed \$300 million in accordance with the requirements of Authorizing Law.

Mr. Coalter introduced the Cancer Prevention and Research Institute of Texas' request for \$300 million. The funds to be expended are associated with grant award years: 2014, 2013, 2012, 2011 and 2010. Staff recommends using the General Obligation Commercial Paper [Cancer Prevention and Research Institute ("CPRIT") of Texas Project], Series A (Taxable) program to fund this request. The program has approximately \$75 million in outstanding commercial paper

and a liquidity limit of \$200 million. The Board was directed to CPRIT's Resolution, and a letter issued on October 30, 2013 by the Governor, Lt. Governor and Speaker to CPRIT lifting the moratorium on CPRIT.

Mr. Coalter introduced Ms. Heidi McConnell, Chief Operation Officer, and Mr. Wayne Roberts, the Interim Executive Director of CPRIT. Ms. McConnell estimated that CPRIT would commit about \$282.3 million for cancer prevention and research grant awards, and estimated that CPRIT would issue \$145.5 million in bond proceeds on as needed basis to cover grant award obligations from fiscal years 2011, 2012 and 2013 as well as any new grant award obligations made during this fiscal year and operating costs for the general agency administration and pre and post award grant management processes.

Mr. Moody made a motion to approve CPRIT's request for financing in an amount not to exceed \$300 million in 2014 fiscal year for awards and administrative expenses in award years 2014, 2013, 2012, 2011 and 2010 under the CPRIT Series A, Taxable General Obligation Commercial Paper program as appropriate, and delegate authority to staff to execute and deliver documents, including updating the Offering Memorandum, if necessary, and take other necessary related action to effectuate the authorization. Mr. Coalter stated that in addition to looking at compliance and developing a manual for the Authority and client agencies, staff recommends appointing an outside counsel to advise and assist the Authority with bond and commercial paper tax law compliance in order to ensure the application of a consistent compliance methodology. The fees would be paid from unused debt service appropriations. Staff recommends appointing Bracewell & Giuliani. Mr. Coalter introduced Mr. Barron Wallace from Bracewell & Giuliani.

Ms. Schiermeyer made a motion to delegate the authority for staff to negotiate and execute a contract with Bracewell & Giuliani LLP for bond counsel services related to bond and commercial paper tax law compliance as discussed. Mr. Moody seconded. The motion passed unanimously.

The transaction priced on August 8th for the purpose of refunding existing debt. Texas Southern's ratings are BBB+ and Baa1 from Fitch and Moody's, respectively, and we had the benefit of a guarantor, Build America Mutual, which lifted that rating from Baa1 to AA. The transaction saved approximately \$4.2 million in present value savings or 6.64%
