REPORT ON CUSTOMER SERVICE

INTRODUCTION

The Texas Public Finance Authority (“TPFA” or “Authority”) developed customer service standards, adopted its Compact with Texans, and conducted its first customer satisfaction survey as part of the statewide strategic planning process in 2002. The Authority has continued to survey its customers during each subsequent biennium in order to evaluate the services provided by the Authority and to identify opportunities for areas of improvement as a cornerstone of its strategic planning process.

The Authority endeavors to provide the highest quality of service to its customers and is pleased to present its fiscal year 2018 customer service report.

INVENTORY OF EXTERNAL CUSTOMERS BY STRATEGY

While most state agencies directly serve the general public, the Authority’s customers consist of other state agencies, universities and other legislatively designated entities on whose behalf the Authority issues debt. These customers are referred to collectively as “client agencies.” The Authority’s key service functions provided to its client agencies are: project financing (consisting of legislatively authorized programs, construction, renovation and repairs of facilities, real property acquisition and facilities acquisition); equipment financing through the Master Lease Purchase Program (“MLPP”); debt administration; financial reporting; legislative assistance; agency operations; and other services. The specific customer service elements are based on the Authority’s strategies in the 2018-2019 General Appropriations Act as outlined below.

A. Goal: FINANCE CAPITAL PROJECTS

A.1.1. Strategy: ANALYZE FINANCINGS AND ISSUE DEBT

A.2.1. Strategy: MANAGE BOND PROCEEDS

A.2.2. Strategy: BOND DEBT SERVICE PAYMENTS

Authority staff identified contacts within the various client agencies performing functions that inter-relate with the Authority’s mission. Executive staff screened the list to determine those individuals or organizations that constitute “customers” from which meaningful data could be collected cost effectively. The list of contacts consists of 123 individuals at 34 client and oversight agencies, which represent the following groups:

- Staff involved in requesting project financing;
- Staff involved in MLPP equipment financing;
- Staff involved in debt administration;
- Staff involved in financial reporting;
- Staff working with Legislative and oversight agencies; and,
- Staff involved with agency operations, including Budget, Payroll, Accounting and fixed assets.

Although the Authority has completely overhauled its survey instrument over time, the basis of the survey remains the same in 2018. The Authority’s survey measures the following four customer service categories: Financing Services, Other Services, General Information and Educational Training. Financing Services is a measurement of how the Authority meets its mission to provide the most cost effective financing available to fund capital projects,

equipment acquisitions, and other programs as authorized by the Texas Legislature. Other Services measures the quality of customer service provided to individuals in the area of debt administration, financial reporting, legislative assistance, agency operations, and other specifically identified services. General Information is a measurement of other customer service quality elements identified in the Authority's Compact with Texans, and the final area of the Authority's survey is designed to measure the quality and effectiveness of Authority-sponsored Educational Training.

The 2018 survey presented no material changes from the 2016 survey instrument, which was previously modified to capture responses from customers receiving a specific type of financing mechanism, i.e., bonds, commercial paper, and MLPP to obtain feedback from customers receiving a broader type of service, project financing and MLPP (equipment financing).

Throughout this report, a few comparisons to prior year surveys are made; however, due to significant changes in the Authority's survey over time, overall survey comparisons are not included.

INFORMATION GATHERING METHODOLOGY

On Friday, May 4, 2018, the Authority distributed notification of its web-based customer satisfaction survey by electronic mail. Survey responses were due 7 days later. As in previous years, customers were provided options to submit their survey anonymously on-line, by regular mail, electronic mail, or facsimile. Of the ten survey responses received, seven customers responded through the web-based system and three customers submitted surveys via electronic mail. The agency's web server captured response data in a web form, the data were copied to an internal file server and finally imported to Excel where additional survey data was hand-keyed, and the data were grouped and sorted. A copy of the Authority's Customer Satisfaction Survey is attached as Exhibit I.

Authority staff developed survey questions to evaluate Financing Services, Other Services, Educational Training, and specific statutorily-required customer satisfaction elements (websites, complaint-handling processes, service timeliness, and printed information), which were captured under General Information. Financing Services and Other Services were also evaluated for customer service deliverables. Evaluation criteria for each survey question were based on a standard Likert Scale utilizing the following measures: strongly agree, agree, neutral, disagree, and strongly disagree.

The survey instrument included a Comments Section under three service evaluation areas for respondents to provide quantifiable details for ratings of "strongly agree" or "strongly disagree". Also, customers were asked to indicate in a separate comment section any specific TPFA sponsored future training needs.

RESPONSE RATE

Over the years, the Authority has attempted to increase its survey response rate by expanding its customer list. In 2006, legislative offices and oversight agencies were added to the Authority's customer list. Further efforts to increase the response rate were attempted in 2010 when the Authority marketed its survey by appending a survey response request to all outgoing emails sent to customers during the survey period. Due to these efforts, the response rate peaked to a high of 25.11% before dropping significantly in 2012 to 7.53% and remained relatively flat in 2014 at 7.69%. The survey response rate increased slightly in 2016 to 12.50% and in 2018, the response rate dipped to 8.13%. In 2016 and 2018, the Authority's list of customers surveyed as compared to those in prior years is significantly less and in 2018, the Authority noted an additional decrease in the number of contacts at several client agencies presumably due to consolidation of some client agencies and turnover at others, which may have some correlation to the decrease in the number of responses.

Below is a chart depicting the response rate history for the Authority's Customer Satisfaction Survey for 2018, with comparative totals over the last five biennia.

Survey Response Data for Fiscal Year 2018 is attached as Exhibit II.

SURVEY RESULTS

Overall Results

The Authority’s survey responses continue to yield high satisfaction ratings for services provided to client agencies with a combined 100% of respondents strongly agreeing (90%) or agreeing (10%) as being satisfied with their overall experience with the Authority.

In 2018, all customer comments and satisfaction ratings reflect overwhelmingly positive remarks in each of the four service categories and are discussed in greater detail in the next section. These high satisfaction ratings coincide with the positive written feedback from the agency’s customers as reflected in this year’s survey results as demonstrated in the comments in the various service categories, including one customer commenting “staff was exceptionally responsive as to markets and process” while another indicated that “the entire staff is very professional and very knowledgeable about debt instruments and the funding environment. It is always a pleasure to work with them.” Below is a table expressing overall customer satisfaction results.

Financing Services

In 2018, the Authority's survey captures data from customers receiving project financing or MLPP equipment financing. This service element is directly linked to the agency's mission to issue debt in the most cost effective and efficient manner and to provide funds to client agencies in a timely manner. As previously noted, this portion of the 2016 customer service instrument was modified to include these two broader survey elements under the Financing Services category and this survey model was repeated in 2018. The results of the 2018 survey reflect high customer satisfaction in the Authority's financing services provided to its client agencies, with a combined 100% of respondents: 1) strongly agree (60%) or agree (40%) that the Authority's financings are cost effective; and 2) strongly agree (70%) or agree (30%) that the Authority's financing process is both efficient and that financing is provided in a timely manner.

Below are the results indicating client agencies' perceptions of the Authority's Financing Services.

TPFA FINANCING SERVICES RESULTS

The Authority attributes these results to the tenure and expertise of its staff combined with previous client agency orientation training sessions and other customer driven services the Authority's staff provides.

One hundred percent of customers agree that Authority staff respond satisfactorily to questions or requests for information, and provide accurate and complete information. Also, a combined 100% of respondents agree that Authority staff are knowledgeable, courteous and professional, and provided information in a timely manner. Additionally, eight of the ten respondents submitted comments relative to Financing Services and all comments received were of a positive nature. Examples of such comments include "I enjoy working with TPFA – they are very courteous and professional" and "Staff was exceptionally responsive and very knowledgeable as to markets and process."

Other Services

Other Services captures data from customers receiving services related to debt administration, annual financial reporting, legislative assistance/response, agency operations (ABEST, USAS, Budget, Payroll, Accounting, SPA) and other specific customer service areas identified by individual survey respondents. Results for Other Services show a combined 100% of customers agree that Authority staff: are knowledgeable; courteous and professional; demonstrate a willingness to assist; respond to requests for information satisfactorily; provide accurate and complete information; communicate effectively; and, provide information in a timely manner. Of the four respondents providing written feedback in 2018, all comments are complimentary of Authority staff in the Other Services area, including one response that "[staff] have consistently given great customer service through the years" while another response indicates that "they have been extremely helpful whenever I have needed their assistance."

General Information

This section reflects specific customer satisfaction elements addressed in TX Gov't Code, chapter 2114 that are not captured elsewhere in this report. Such elements include customer experience with the Authority's website, complaint-handling process, and responsiveness to general inquires of Authority personnel. Customer service results for general information inquiries involving telephone calls, e-mails or letters reflect customer satisfaction is a combined 90%. One customer comments that "I am very happy and enjoy working with TPFAs." while another responded "TPFA has always responded well to questions. The overall experience with TPFAs has been positive."

Below is a table of customer service results as it relates to the Authority's website over the last five biennia. The overall average agreement expressed in this table is computed by combining the categories of strongly agree and agree. Based on the 2018 survey responses, over 75% of customers agree that the Authority's website is current, easy to use and well organized, demonstrating a slight upward trend in customer satisfaction from the previous period.

As an issuer of municipal debt, the Authority uses its website to communicate to the bond market, rating agencies, and other stakeholders while also providing sufficient resources for client agencies and legislative offices. Like most state agencies, the Authority is challenged with organizing vast amounts of resources on its website related to its financing programs, processes, outstanding debt, and a multitude of statutorily required reports and links. The Authority will continue to seek additional ways to enhance the Authority's customers experience when visiting its website.

Prior to 2018, the highest percentage of customers to date responding as being familiar with the Authority's complaint handling process was a combined 76.19% in 2012. In 2014, the percentage decreased to below 50% of customers responding to the survey indicating familiarity with this aspect of the Authority's business practice and the results peaked in 2018 to a combined 88.89%. Below is a chart reflecting five biennia of historical responses from customers on complaint handling awareness.

The above results indicate that the percentage of customers familiar with the complaint handling process has increased in the last two biennia from previous years; however, it should be noted that the Authority has not received any formal complaints since the implementation of its complaint handling process in 2000. In an effort to increase familiarity with this portion of the agency’s business practice, the Authority’s Compact with Texans continues to be included in the distribution of its Customer Satisfaction Survey, including the 2018 survey distribution. Following the adoption of its Compact with Texans, a complaint has not been filed with the Authority.

Educational Training

Training sessions are generally held for legislative and oversight agencies and client agencies. Other more specialized training sessions are conducted as requested or as needed. Client agency training is designed to familiarize agencies with the bond issuance process, including the time-line needed to structure financings, and the documents that must accompany a financing request. Other specialized training regarding the bond issuance process and others are conducted between legislative sessions with legislative staff and staff from oversight agencies. Results from the 2018 survey collected responses from three customers. One of the three, or 33%, found that TPFA training sessions were useful while the remaining two, or 66.67%, were neutral responses.

Customers responding to the survey were also provided an opportunity to specify any future training needs. In 2018, one customer responded requesting training on estimated expenditure schedules.

ANALYSIS OF FINDINGS

The survey results indicate that, overall, Authority customers are satisfied with the services that the agency provides. The Authority continues to receive exemplary ratings in carrying out its mission to provide its customers with the most cost effective, efficient and timely financings. Staff responsiveness, knowledge, courtesy and professionalism, precision, and timeliness reflect similar results. The agency attributes these results to the tenure and expertise of Authority's staff and previously customer training sessions frequented by its client agencies.

The Authority will continue to seek ways to further improve the overall customer service experience of individuals contacting the agency by phone and those visiting the agency's website and will conduct more specialized training sessions to further increase client agencies' knowledge of the financing process and post issuance compliance requirements.

The Authority is extremely pleased with the results of the survey and will strive to maintain the high level of service its customers have come to expect in carrying out the agency's mission.
